

WAGNER ROOFING COMPANY

Estimator/Project Manager:
Hyattsville, MD

Are you an innovative, confident and results-driven professional? Join a company recognized for their role in protecting and restoring the unique architecture in the Washington area for over 100 years. Since 1914, Wagner Roofing has been preserving history throughout the Mid-Atlantic region at prominent landmarks such as the United States Naval Academy, the Washington National Cathedral and the White House. We are proud to provide the highest quality roofing, sheet metal and restoration craftsmanship from our internationally trained professionals at the forefront of the industry.

Job Responsibilities

The estimator/project manager is responsible for all aspects of the project including but not limited to initial customer contact, scope of work development, estimating, proposal submission, contract negotiation, job ticket production, project management and close out tasks. Collaborates with service department, operations, field personnel and management to develop and execute well-planned, top quality work with utmost attention paid to safety, quality and productivity. Must be a well organized self-starter capable of prioritizing and handling multiple tasks at once in our fast paced environment. A high level of communication and teamwork is required both internally and with customers. A great attitude, strong organizational skills, attention to detail and the ability to multitask are a must.

Details

A minimum of five years experience in a sales and estimating capacity in commercial roofing or other specialty trade is required.

Wagner Roofing Company offers a competitive salary and comprehensive benefits package.
